FOR THE DISTRICT OF ALASKA**

STATE OF ALASKA DEPARTMENT OF)	
NATURAL RESOURCES, et al.,)	
)	
Plaintiffs,)	
)	Case No.: 4:13-cv-00008-RRB
v.)	
)	CONSENT DECREE
UNITED STATES OF AMERICA, et al.)	
)	
Defendants.)	
_____)	

BACKGROUND

1. On September 29, 2016, pursuant to the Quiet Title Act, 28 U.S.C. § 2409a, and the Declaratory Judgment Act, 28 U.S.C. § 2201, the State of Alaska Department of Natural Resources and State of Alaska Department of Transportation and Public Facilities (collectively, “State of Alaska” or “State”) filed the operative, amended complaint in this matter. *See* ECF No. 174. The Federal Defendant is the United States of America. The United States and the State of Alaska are referred to herein individually as “Party” and collectively as “Parties.”

2. Through the amended complaint, the State claims ownership to six rights-of-way under the Act of July 26, 1866, ch. 262, § 8, 14 Stat. 251, 253, codified at 43 U.S.C. § 932 (“R.S. 2477”), repealed by the Federal Land Policy and Management Act of 1976, 43 U.S.C. §§ 1701 et seq. Only three of the six alleged R.S. 2477 rights-of-way claimed by the State traverse federal land.

3. The three rights-of-way traversing federal land are located in eastern interior Alaska, on federal public lands within the Fortymile Wild and Scenic Corridor, so designated under section 605 of the Alaska National Interest Lands Conservation Act (“ANILCA”), 16 U.S.C. § 3101, *et seq.*, and the Wild and Scenic Rivers Act, 16 U.S.C. §§ 1271, *et seq.*

4. The three asserted R.S. 2477 rights-of-way traversing federal land are known as the Chicken to Franklin Trail, the Hutchinson Creek Trail, and the Montana Creek Spur Trail as set forth in Exhibit 1. The Chicken to Franklin Trail comprises four identifiable portions as set forth in Exhibit 2: Franklin Creek Trail, Southern CFT, Kettle George Trail, and Landing Strip Trail.

5. The nature of the real property interests the State claims in the three rights-of-way that traverse federal land is that of a non-exclusive highway right-of-way and not a fee. *See* ECF No. 174 ¶¶ 75–76.

6. Based on the facts developed during the extensive discovery completed in this lawsuit, the Parties have determined that it is in their best interests to compromise and resolve this matter without protracted litigation, and have conducted good-faith negotiations resulting in this Consent Decree.

7. Through this Consent Decree, the State disclaims its interest in the above-identified Kettle George Trail and Landing Strip Trail rights-of-way.

8. Through this Consent Decree and the United States’ concurrently-filed Quiet Title Act Disclaimer, the United States disclaims its interest in a non-exclusive

highway right-of-way in the above-identified Montana Creek Spur Trail, Hutchinson Creek Trail, Southern CFT, and Franklin Creek Trail rights-of-way (collectively, the “Four Disclaimed Rights-of-Way”).

9. The United States and the State agree, and this Court by entering this Consent Decree finds, that this Consent Decree has been negotiated by the Parties in good faith, that settlement of this matter without further litigation and without the admission or adjudication of any issue of fact or law is appropriate and will avoid prolonged and complicated litigation, and that this Consent Decree is fair, reasonable, and in the public interest.

NOW, THEREFORE, it is hereby ORDERED, ADJUDGED, AND DECREED:

JURISDICTION

10. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. § 1331 and 1346(f), 28 U.S.C. § 2409a, and 28 U.S.C. § 2201–02. Neither the United States nor the State shall challenge entry or the terms of the Consent Decree or the Court’s authority to enforce this Consent Decree.

PARTIES

11. This Consent Decree is binding upon the United States and the State, including the United States’ and the State’s officers, agents, successors and assigns.

THE FOUR DISCLAIMED RIGHTS-OF-WAY

12. The Four Disclaimed Rights-of-Way alignments defined above as the Montana Creek Spur Trail, Hutchinson Creek Trail, and the Southern CFT and Franklin Creek components of the greater Chicken to Franklin Trail—and depicted on the attached maps (Exhibits 1 and 2) are the “Four Disclaimed Rights-of-Way” referenced herein.

13. The Parties agree that the Four Disclaimed Rights-of-Way are currently in a primitive, unpaved condition (with a natural travel surface including surface rock outcrop).

USE AND MANAGEMENT OF THE FOUR DISCLAIMED RIGHTS-OF-WAY

14. The use and management of the Four Disclaimed Rights-of-Way shall be in accordance with this Consent Decree and any applicable federal law, or applicable state law if federal law counsels use of state law in the particular instance.

15. Except as provided in this Consent Decree or with explicit United States Bureau of Land Management (“BLM”) permission, the travel surface within the Four Disclaimed Rights-of-Way shall remain in a primitive, unpaved condition and shall not be widened beyond the current travel surface or relocated beyond the 60 (sixty) foot width (30 (thirty) feet to each side of the right-of-way centerline) as set forth in the Quiet Title Act Disclaimer. Within the Four Disclaimed Rights-of-Way, the State may conduct “routine maintenance” to the extent that it is reasonably necessary without the consent or prior approval of the BLM. “Routine maintenance” preserves the existing road through the physical upkeep or repair of wear or damage whether from natural or other causes—

essentially preserving the status quo. “Routine maintenance” does not encompass “construction,” which includes widening of the road, the horizontal or vertical realignment of the road, the installation (as distinguished from cleaning, repair, or replacement in kind) of bridges, culverts, and other drainage structures, as well as any significant change in the surface composition of the road, or any improvement, betterment, or any other changes in the nature of the road that may significantly impact the servient estate. Routine maintenance would include the upkeep of any approved construction, for instance keeping any approved construction of drainage features open and operable. Anything beyond routine maintenance—including, but not limited to: changes to the horizontal or vertical alignment or width of the trails, installation (as distinguished from cleaning, repair, or replacement in kind) of bridges, culverts, and other drainage structures, changes in surface composition or removal of vegetation beyond what is reasonably necessary to conduct the allowed uses safely—may be made to the Four Disclaimed Rights-of-Way only with the approval of the BLM. Approval will be granted for an improvement only if BLM determines that: the improvement(s) are reasonable and necessary for a use within the scope of the right-of-way at issue and the improvement(s) will cause no unnecessary or undue degradation to the public lands. When making these determinations, the BLM will apply reasonable regulation, including existing policies, which the State reserves the right to dispute are applicable. The BLM may not unreasonably delay or withhold its determination. Any denial of proposed work

shall be subject to judicial resolution under the dispute resolution procedures set forth in this Consent Decree.

16. The BLM and the State shall mutually cooperate in taking reasonable steps to prevent any motorized use of the Four Disclaimed Rights-of-Way from: (1) occurring outside of their respective alignments; or (2) continuing past their respective termini, other than the motorized use currently or hereafter allowed by the BLM. The BLM and the State may issue public notices and/or install signs for the purpose of the above-described management. The BLM, and/or the State in coordination with BLM, may implement other management tools to accomplish the above-described purpose.

17. Only the State, the BLM, the State's or the BLM's contractors, or people acting under the State's or the BLM's authority shall be authorized to undertake maintenance or improvements on the Four Disclaimed Rights-of-Way, in accordance with Paragraphs 15 and 19 herein. The State and the BLM, respectively, will be responsible for those performing maintenance or improvements under their authority. Any maintenance or improvement conducted by the State, the BLM, the State's or the BLM's contractors, or people acting under the State's or the BLM's authority that is prohibited by Paragraphs 15 and 19 or by any other provisions of this Consent Decree shall be subject to judicial resolution under the dispute resolution procedures set forth in this Consent Decree. Neither the State nor BLM shall be held liable for any maintenance or construction conducted by third parties not authorized under this paragraph.

18. The State and the BLM shall take reasonable steps to prevent any unauthorized third parties from performing maintenance or approved improvements on the Four Disclaimed Rights-of-Way.

19. Any work on the Four Disclaimed Rights-of-Way, either routine maintenance or improvements approved pursuant to Paragraph 15, shall be limited to work reasonably necessary to maintain the Four Disclaimed Rights-of-Way in a safe and passable condition (see paragraph 15 for discussion of “routine maintenance”), the physical repair of wear or damage whether from natural or other causes, maintaining the condition of the Four Disclaimed Rights-of-Way, ensuring adequate drainage, and keeping drainage features open and operable. These maintenance activities will not include changes to the character of the Four Disclaimed Rights-of-Way, *i.e.*, they will continue in a primitive condition as described in Paragraph 15 herein. As the right-of-way holder, the State has a duty to maintain the travel surface in a safe condition for the uses described in Paragraph 21 which does not cause unnecessary or undue degradation to the servient estate.

20. In the event of an emergency that significantly impacts safe travel on the Four Disclaimed Rights-of-Way, BLM will expeditiously consult with the State on proposed improvement to address the emergency event.

MOTORIZED USE OF THE FOUR RIGHTS-OF-WAY

21. The interim management prescriptions in the Eastern Interior Fortymile Resource Management Plan (Dec. 2016) for motorized use of the Four Disclaimed

Rights-of-Way currently allows for the same level of motorized use as the State's Generally Allowed Use Regulation, *see* 11 AAC 96.020 (2023). The Parties agree that the public may engage in the use currently authorized under the BLM's interim management prescriptions and the State's Generally Allowed Use Regulation. Both regulatory agencies require a permit before the public may engage in motorized use beyond what is allowed in the State's Generally Allowed Use Regulation or the BLM's interim management prescriptions on the public land they manage. Therefore, the Parties agree that any motorized uses exceeding the current limitations will require approval from the State and from the BLM before commencing. The permit applicant will notify the State and the BLM of the permit request and both entities will comply with their regulations for granting a permit. Once BLM receives a complete application, the BLM will follow the regulation at 43 CFR Part 2800, including the processing and timeline requirements at 43 CFR 2804.25. After this permitting process is completed, any permit denied by the BLM is subject to administrative appeal to the Interior Board of Land Appeals and judicial review in a new case under the Administrative Procedure Act. The uses requiring a permit for the Four Disclaimed Rights-of-Way are set out in 11 AAC 96.010. When considering a permit, the State will follow the process set out in 11 AAC 96.030 and any "eligible person affected" by the State's decision may appeal the decision in accordance with 11 AAC 02. *See* 11 AAC 96.110.

22. Nothing herein shall be deemed to constitute a waiver of the BLM's authority to otherwise reasonably regulate—through its land use planning, or other

applicable authority—the Four Disclaimed Rights-of-Way. Nothing herein shall be deemed to constitute an admission or concession by the State that BLM has the authority to reasonably regulate—through its land use planning, or other applicable authority—the Four Disclaimed Rights-of-Way. Nor does this agreement limit the State’s right to object to and oppose, administratively or judicially, any actions by the BLM taken pursuant to such authority.

GIS ALIGNMENT AND LEGAL DESCRIPTION OF THE FOUR RIGHTS-OF-WAY

23. **Legal Description:** As described in the BLM’s notice published in the Federal Register at 87 Fed. Reg. 62,441 (Oct. 14, 2022), the BLM surveyed the Four Disclaimed Rights-of-Way, and the Parties agree the plats attached as Exhibit 3 accurately reflect the Four Disclaimed Rights-of-Way and that the legal description of the Four Disclaimed Rights-of-Way are as follows:

- a. **FOR T27N, R18E, CRM, AK:** A 60 foot wide strip of land within sec. 1, Township 27 North, Range 18 East, and within sec. 36, Township 28 North, Range 18 East; Copper River Meridian, Alaska, as located and described with the survey plat and field notes officially filed on March 21, 2023; said strip being 30 foot wide on either side of a centerline as described in the Informational Traverse of a Portion of the Apparent Centerline of the Chicken to Franklin Trail T. 27 N., R. 18 E., Copper River Meridian, Alaska portion of the field note record.

- b. **FOR T28N, R18E, CRM, AK**: A 60 foot wide strip of land within secs. 33 thru 36, Township 28 North, Range 18 East, Copper River Meridian, Alaska; as located and described with the survey plat and field notes officially filed on March 21, 2023; said strip being 30 foot wide on either side of a centerline as described in the Informational Traverse of a Portion of the Apparent Centerline of the Chicken to Franklin Trail T. 28 N., R. 18 E., Copper River Meridian, Alaska portion of the field note record.
- c. **FOR T7S, R27E, FM, AK**: A 60 foot wide strip of land in Township 7 South, Range 27 East, Fairbanks Meridian, Alaska, as located and described with the survey plat and field notes officially filed on March 21, 2023; said strip being 30 foot wide on either side of the centerline as described in the Informational Traverse of the Apparent Centerlines of the Hutchinson Creek and Montana Creek Spur Trails, through a Portion of the Fortymile Wild and Scenic River Corridor portion of the field note record.

WAIVER, RELINQUISHMENT, ABANDONMENT, AND RELEASE OF RIGHT-OF-WAY CLAIMS

24. The State of Alaska agrees to dismiss with prejudice its claim to an R.S. 2477 right-of-way over the Kettle George Trail and the Landing Strip Trail as identified in Exhibit 2. In addition, the State agrees to relinquish and forego any claim to an R.S.

2477 right-of-way within that portion of the federally-owned Fortymile Wild and Scenic Corridor that is two miles wide (one mile to each side of the centerline) of the State's claimed rights-of-way in this case, as depicted in the State's Amended Complaint. ECF No. 174. In doing so, the State agrees to relinquish its rights to seek to quiet title to, or otherwise assert, in any manner or through any means, including judicially, administratively, and legislatively, any R.S. 2477 right-of-way that is both within the federally-owned Fortymile Wild and Scenic Corridor and within the two-mile corridor described in this Paragraph.

IMPROVING PORTIONS OF TRAILS CURRENTLY IN DISREPAIR

25. The Parties have a mutual interest in curing any current, and preventing any future, unnecessary or undue degradation of the Four Disclaimed Rights-of-Way by, among other things, eliminating stream capture and deep rutting or re-routing the right-of-way to a location that is not as susceptible to degradation through the process set forth in paragraph 29 herein.

26. The Parties recognize that repairs, improvements, or re-routing are necessary in the locations generally defined below to ensure the condition of the trail does not continue to cause unnecessary or undue degradation of the Wild and Scenic River corridor unless the BLM determines these repairs, improvements, or re-routing are outside the scope of the Four Disclaimed Rights-of-Way or otherwise unreasonable and unnecessary to allow for continued traditional uses existing in 1969:

- a. The western portion of the Franklin Creek Trail as the Trail enters the BLM lands and descends to the valley floor: the trail in this section is characterized by extremely loose soil conditions on a steep hill, which has led to trail braiding and increased potential runoff and landslide. Repairs are needed to contain the use within a single disturbed surface, and, possibly, improvements may be needed to ensure the trail does not further degrade.
- b. The portion of the Franklin Creek Trail along Franklin Creek where the route is inundated by Franklin Creek: repairing the trail, or rerouting the trail if repair would be inadequate, to avoid stream capture is necessary to prevent unnecessary or undue degradation of the wild and scenic river.
- c. The portion of the Hutchinson Creek Trail that uses the stream bed of Hutchinson Creek or requires multiple crossings of the Creek in quick succession: repairing the trail, or rerouting the trail if repair would be inadequate, to avoid stream capture and vehicular use of the stream bed is necessary to prevent unnecessary or undue degradation of the wild and scenic river.

The current condition of the Four Disclaimed Rights-of-Way were not caused by State management or lack of management. Due to the dispute in ownership, the State did

not have clear authority to limit use, manage use, or perform maintenance on the Four Disclaimed Rights-of-Way.

27. Accordingly, the Parties agree to work in good faith to identify specific portions of the Four Disclaimed Rights-of-Way within the areas described above that are causing unnecessary or undue degradation to the United States' servient estate.

28. For all portions of the Four Disclaimed Rights-of-Way identified through the good faith discussions described in Paragraph 27, the parties will discuss joint efforts to perform maintenance, contract to have maintenance performed, or authorize others to perform maintenance to cure the current, and prevent any future, unnecessary or undue degradation, including, but not limited to, eliminating stream capture and deep rutting. If the maintenance described above is unable to cure the unnecessary or undue degradation, the Parties will discuss joint efforts to re-route the right-of-way to a location that is not as susceptible to degradation through the process set forth in paragraph 29 herein.

29. **Re-routing Process:** The Parties recognize that public use of the trails without active management may have damaged the trails to an extent that maintenance cannot correct the damage or prevent future unnecessary or undue degradation. The Parties also recognize that the historical location of the trails has likely shifted over time and a reroute of the trails consistent with this Consent Decree would fall within the grant of the R.S. 2477 right of way. Should the Parties decide to re-route any portion of the Four Disclaimed Rights-of-Way, before completing any ground disturbing work, the Parties shall propose re-routing plans that are consistent with the scope of the Four

Disclaimed Rights-of-Way and that include an adequate legal description to the BLM. BLM will review the proposed improvement pursuant to Paragraph 15 above.

30. This Agreement shall not be interpreted to require the expenditure by the State of funds not appropriated by the State Legislature.

**APPROVAL OF CONSENT DECREE, FILING OF QUIET TITLE ACT
DISCLAIMER, DISMISSAL OF ACTION, FINALIZATION AND EFFECTIVE
DATE, AND FEES**

31. **Approval of Consent Decree:** Concurrently with filing this Consent Decree, the Parties shall jointly move the District Court to approve and ratify without conditions this Consent Decree and to confirm the Quiet Title Act Disclaimer (which shall become effective on the Effective Date of this Consent Decree as set forth in the following paragraph), and enter a final judgment dismissing Plaintiffs' Amended Complaint with prejudice.

32. **Quiet Title Act Disclaimer:** In accordance with 28 U.S.C. § 2409a(e), the United States concurrently files a Quiet Title Act Disclaimer with the Court, whereby the United States has disclaimed any interest adverse to the claims of the State in the above-identified Montana Creek Spur Trail, Hutchinson Creek Trail, Southern CFT, and Franklin Creek Trail R.S. 2477 rights-of-way traversing federal land, as more fully described in said Quiet Title Act Disclaimer.

33. **Finalization and Effective Date:** This Consent Decree shall be effective sixty (60) business days after the District Court approves and ratifies without conditions

this Consent Decree, confirms the Quiet Title Act Disclaimer, and enters a final judgment dismissing Plaintiffs' Complaint.

34. **Failure to Obtain District Court Approval:** In the event that the District Court does not ratify and approve this Consent Decree without alterations, confirm the Quiet Act Disclaimer, and enter judgment dismissing Plaintiffs' Complaint, or if the ratification, approval, confirmation, or entry is otherwise judicially set aside, then neither the Consent Decree, the waivers pursuant to paragraph 24 herein, nor the Quiet Title Act Disclaimer shall be final and effective. In such event, the Parties shall negotiate in good faith in an attempt to address the issue or issues underlying the District Court's or other judicial action and to resolve this matter without litigation. In the event the Parties do not agree that the issue or issues underlying the District Court's or appellate court's action can be resolved, or are not able to resolve such issue or issues following good faith negotiations, this Consent Decree, the actions taken by the State pursuant to paragraph 24 herein, and the Quiet Title Act Disclaimer shall be deemed void.

35. **Fees:** The Parties shall bear their own fees and costs in this matter.

REMEDIES

36. The Parties reserve any and all legal and equitable remedies to enforce the provisions of this Consent Decree.

INFORMAL NEGOTIATIONS AND DISPUTE RESOLUTION

37. The Parties shall endeavor at all times to cooperate with one another and attempt to resolve any disagreements concerning their respective rights and/or obligations

under this Consent Decree through good faith negotiations among themselves according to the procedures set forth herein.

38. The Party seeking to utilize these dispute resolution procedures must notify the other Party of the initiation of these procedures.

39. Upon receipt of such notice, counsel for the Parties shall arrange to confer within fifteen (15) business days and attempt to resolve the disagreement.

40. In the event that the Parties are unable to resolve the disagreement within thirty (30) business days of the conference provided for in paragraph 39, which time period may be extended if agreed in writing by all Parties, any Party may apply to the Court for judicial resolution of the disagreement. Such application shall be by motion setting forth the matter in disagreement and the relief being requested. No Party shall be entitled to file such a motion, or otherwise seek judicial resolution of the disagreement, unless and until the procedures set forth in paragraphs 37-39 herein have been completed.

41. Resort to the procedures set forth in paragraphs 37-40 shall not postpone or extend the time for performance of any Party's obligations under this Consent Decree.

CONTINUING JURISDICTION

42. This Court shall retain jurisdiction over this matter solely for the purpose of judicial resolution of any disagreement brought to the Court's attention pursuant to paragraphs 37-41 herein.

RECORDATION OF CONSENT DECREE

43. The State shall record this Consent Decree and all attachments hereto, the Quiet Title Act Disclaimer and all attachments thereto, and any other documents that affect interests in land related to this Consent Decree and the Quiet Title Act Disclaimer in the Fairbanks Recording District of the State Recorder's Office. The BLM shall update its official land records to reflect the information set forth in these documents.

BINDING EFFECT AND ENTIRE AGREEMENT

44. This Consent Decree shall apply to and be binding upon each of the Parties hereto, and shall inure to the benefit of the Parties hereto including, but not limited to, their officers, employees, and representatives.

45. This Consent Decree constitutes the entire agreement between the Parties hereto and supersedes any prior understanding, representation, or agreement of the Parties regarding the subject matter hereof, and may not be amended or modified except by an instrument in writing signed by all of the Parties. There are no warranties or representations by any Party other than those expressly contained herein.

PRODUCT OF NEGOTIATIONS, OPPORTUNITY TO OBTAIN LEGAL ADVICE, RESERVATIONS

46. **Product of Negotiations:** This Consent Decree is the product of negotiations and preparation by the Parties hereto and their respective attorneys of record. This Consent Decree shall be construed as a whole according to its plain meaning and not strictly for or against any Party. Any ambiguities herein shall not be construed in favor of or against any Party.

47. **Reservations:** This Consent Decree has been entered into based on good faith negotiations for the purpose of resolving this litigation by compromise and settlement and nothing in this Consent Decree or in the documents implementing this Consent Decree shall be construed or offered in evidence in any proceeding as an admission by any Party as to any fact, claim, or defense in this action, or as precedent as to the merits of any claim or defense, or for any other purpose in any other proceeding, other than any proceedings seeking approval, implementation, enforcement, or modification of this Consent Decree or as evidence of ownership of the Four Disputed Rights-of-Way or evidence of the State's waiver of claims as described herein.

GENERAL RELEASE OF ALL CLAIMS

48. Other than specifically provided for by this Consent Decree, the State hereby releases, acquits and forever discharges the United States of and from any and all claims, demands, liabilities or causes of action at law or in equity whatsoever, direct or indirect, known or unknown, foreseen or unforeseen, that the State now has or that may arise in the future against the United States connected with the Quiet Title Act claims related to R.S. 2477 contained in the State's Amended Complaint. The State expressly waives its rights under Alaska law and any other provision of law that provides that a general release does not extend to claims that it does not know or suspect to exist in its favor at the time of executing the release, which if known by the State may have materially affected the State's agreement to release the United States

NO THIRD-PARTY RIGHTS

49. Nothing in this Consent Decree or in the documents implementing this Consent Decree shall be construed as creating any right or benefit, substantive or procedural, enforceable at law or in equity, in or to any person or entity not a Party to this Consent Decree against the United States or the State including, but not limited to, their officers, employees, and representatives.

NO WAIVER

50. No waiver of any provision of this Consent Decree shall be deemed to constitute or shall constitute a waiver of any other provisions hereof, whether or not similar, nor shall any waiver constitute a continuing waiver. No waiver shall be binding unless executed in writing by the Party making the waiver.

LIMITATIONS ON EFFECT OF CONSENT DECREE AND COMPLIANCE WITH OTHER LAWS

51. Nothing in this Consent Decree shall constitute an admission, waiver, or precedent as to any Party for any other R.S. 2477 claim or defense. Nothing in this Consent Decree establishes precedent regarding the BLM's future management or administration of the public lands under its jurisdiction outside of the Four Rights-of-Way, and nothing herein shall preclude or limit the BLM's authority, outside of its authority over the Four Disputed Rights-of-Way, as provided by law, regulation, or policy. Similarly, nothing in this Consent Decree establishes precedent regarding the State's future management or administration of its other R.S. 2477 rights-of-way or the public lands under its jurisdiction, and nothing herein shall preclude or limit the State's

authority as provided by law on its other R.S. 2477 rights-of-way or the other public lands under its jurisdiction.

52. Nothing in this Consent Decree or in the documents implementing the Consent Decree shall be interpreted as or constitute a commitment by the United States to take action in contravention of the Administrative Procedure Act, 5 U.S.C. §§ 702, 704; the National Environmental Policy Act, 42 U.S.C. § 4321 *et seq.*, the Endangered Species Act, 16 U.S.C. §§ 1531-1544, or any other law or regulation, substantive or procedural.

53. Nothing in this Consent Decree shall be construed to deprive any federal official of authority to revise, amend, or promulgate regulations. Nothing in this Consent Decree shall be construed to deprive the State of the ability to challenge any federal official's exercise of authority to revise, amend, or promulgate regulations.

54. Nothing in this Consent Decree shall be deemed to limit the authority of the Executive Branch to make recommendations to Congress on any particular piece of legislation. Nothing in this Consent Decree shall be deemed to limit the State's ability to oppose or challenge any Executive Branch's recommendation to Congress on any particular piece of legislation.

55. This Consent Decree only addresses and affects the State's claim to the R.S. 2477 rights-of-way affected by this Consent Decree implicated in the State's Amended Complaint in this case and in this Consent Decree's waiver provisions. Nothing in this Consent Decree shall be deemed to limit the authority of the State, or deprive any state official of rights or claims, under Title XI or Section 1323 of ANILCA,

16 U.S.C. § 3101, *et seq.* Nothing in this Consent Decree shall be interpreted as, or shall constitute, a commitment or requirement that the United States or any federal agency obligate or expend funds, or take any other action, in contravention of the Anti-Deficiency Act, 31 U.S.C. § 1341, or any appropriations law.

SIGNATORIES/SERVICE

56. Each undersigned representative of the U.S. Department of Justice, Environment and Natural Resources Division, Natural Resources Section, and the State of Alaska Department of Law certifies that she is authorized to enter into the terms and conditions of this Consent Decree and to execute and bind legally such Party to this document.

57. All notices, requests, demands, and other communications under this Consent Decree shall be in writing and shall either be delivered personally with delivery confirmation, via overnight delivery with delivery confirmation, or sent by certified U.S. mail with return receipt to the respective Party as follows:

Anchorage, AK 99501

If any Party changes the contact information as listed above, that Party shall promptly provide notice to the other Party of the new contract information.

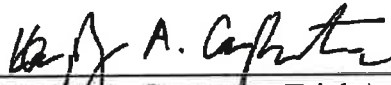

EXECUTION OF CONSENT DECREE

58. This Consent Decree may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same Consent Decree.

59. Upon entry of this Consent Decree, the Parties intend to jointly move to dismiss the State's claims against the United States.

It being resolved and agreed to as delineated above, the undersigned Parties express their mutual agreement hereto this 20th day of November 2024.

4:13-cv-8-RRB (D. Alaska)

TOWNSHIP 27 NORTH, RANGE 18 EAST, OF THE COPPER RIVER MERIDIAN, ALASKA

This plat contains the entire survey record.

This survey was accomplished using the Global Positioning System, and line was cleared only from the township corner, to approximately 1 1/2 chains northerly of the Taylor Highway.

This survey was executed by Kurt D. Huhta, Cadastral Surveyor, June 4, 2002, in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, Special Instructions for Group No. 818, Alaska, dated May 22, 2002, approved May 30, 2002 and Assignment Instructions dated May 31, 2002.

Field assistants were:

Nathan C. Erickson, Land Surveyor
Gary L. McIntyre, Land Surveyor
Andrew M. Buck, Surveying Technician

The azimuth was obtained from the Global Positioning System, utilizing static relative and real-time kinematic positioning techniques, and refers to the true meridian.

The geographic position of the corner of Townships 26 and 27 North, Ranges 17 and 18 East, as determined by a tie to National Geodetic Survey triangulation station "ATWATER 1956", is:

Latitude: 64°04'12.57" North (NAD 27)
Longitude: 141°58'04.23" West

The mean magnetic declination was observed during the execution of other surveys in the vicinity.

This survey is situated approximately 1 mile westerly of Chicken, Alaska.

The land is gently sloped to the southeast, and forested with spruce, birch, and alder.

Access to the survey was by truck.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., buried 1 1/2 ft. below grade in the Taylor Highway, with brass cap mkd. as shown, from which

A spruce, 4 ins. diam., bears N. 0 3/4° E., 153 lks. dist., mkd. XBT, with a 5 in. spike driven into the SE side at the base.

A spruce, 7 ins. diam., bears N. 61 1/2° E., 141 1/2 lks. dist., mkd. T27N R18E S31 BT, with a 5 in. spike driven into the S side at the base.

A spruce, 5 ins. diam., bears S. 75 1/4° E., 183 1/2 lks. dist., mkd. T26N R18E S6 BT, with a 5 in. spike driven into the SW side at the base.

A spruce, 7 ins. diam., bears N. 40° W., 273 lks. dist., mkd. T27N R17E S36 BT, with a 5 in. spike driven into the NE side at the base.

Drive a steel fence post, 6 ft. long, 2 ft. in the ground, 150 lks. N of cor.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a curve in the Taylor Highway, in an area forested with alder, spruce, and birch.

Lat. 64° 04' 12.57" N.
Long. 141° 58' 04.23" W.
NAD27

At 0.23, Taylor Highway, 42 lks. wide,
bears N. 30° E. and S. 35° W.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with brass cap mkd. as shown, from which

A spruce, 8 ins. diam., bears N. 22° E., 35 lks. dist., mkd. S 1/16 S31 BT, with a 5 in. spike driven into the E side at the base.

A spruce, 7 ins. diam., bears S. 67 1/2° W., 17 lks. dist., mkd. S 1/16 S36 BT, with a 5 in. spike driven into the N side at the base.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a gentle SE slope, forested with spruce, birch, and alder.

N.G.S.
"ATWATER 1956"

Latitude 63° 58' 20.726" N.
Longitude 141° 44' 04.766" W.
NAD83 (1986)

Latitude 63° 58' 21.892" N.
Longitude 141° 43' 56.593" W.
NAD27 (NADCON)

Found an aluminum disk, 2 1/2 ins. diam., firmly set, flush with the ground, with top mkd. as shown.

Referenced as shown in the published record.

Located approximately 12 miles easterly of the Fortymile highway, approximately 8 miles southerly and 7 miles easterly of Chicken, on a small rounded top at the headwaters of Atwater Creek on approximately the highest point.

For the Director

[Signature] March 29, 2003
Deputy State Director for Cadastral Survey, Alaska

I, Kurt D. Huhta, HEREBY CERTIFY upon honor that in pursuance of Special Instructions dated May 22, 2002, I have executed the survey depicted on this plat in strict conformity with said Special Instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, 1973, and in the specific manner described on this plat.

DATE March 21, 2023

TOWNSHIP 27 NORTH, RANGE 18 EAST, OF THE COPPER RIVER MERIDIAN, ALASKA DEPENDENT RESURVEY AND INFORMATIONAL TRAVERSE

DETAIL

The history of surveys is contained in the field notes.

This plat and field notes represent the dependent resurvey of a portion of the subdivisional lines and an informational traverse of a portion of the apparent centerline of the Chicken to Franklin Trail in Township 27 North, Range 18 East, Copper River Meridian, Alaska.

This survey was executed by Joshua P. Foreman, Cadastral Surveyor, August 27 through September 29, 2021, in accordance with the specifications set forth in the Manual of Surveying Instructions (2009) and Supplemental Special Instructions No. 1 for Group No. 1210, Alaska, dated August 24, 2021, and approved August 27, 2021.

The direction of all lines returned on the plat, including ties, are reported as mean bearings with reference to the true meridian.

Informational Traverse Notes

1. The portion of the Chicken to Franklin Trail from Angle Point 4 to the intersection with the line between sections 4 and 33 on the north boundary of the township is described in the field notes of Township 28 North, Range 18 East, CRM, Alaska.
2. The Chicken to Franklin Trail has a 60 foot Right of Way, 30 feet either side (perpendicular distance) from the centerline.

TOWNSHIP 27 NORTH, RANGE 18 EAST, OF THE COPPER RIVER MERIDIAN, ALASKA

INFORMATIONAL TRAVERSE.....PAGE 5

T. 27 N., R. 18 E., Copper River Meridian, Alaska

Chains	<p>The following field notes describe the dependent resurvey of a portion of the subdivisional lines and an informational traverse of a portion of the apparent centerline of the Chicken to Franklin Trail in Township 27 North, Range 18 East, Copper River Meridian, Alaska.</p> <p>The survey of a portion of the subdivisional lines of Township 27 North, Range 18 East, Copper River Meridian, Alaska, was executed by Kurt D. Huhta, Cadastral Surveyor, in 2002.</p> <p>The dependent resurvey of a portion of the south boundary, a portion of the subdivisional lines, U.S. Survey Nos. 7467, 8836, and 13799, Mineral Survey Nos. 2095, 2096, 2097, 2177, 2178, and 2429, and the survey of a portion of the south boundary, a portion of the subdivisional lines, and a portion of the subdivision of section lines of Township 27 North, Range 18 East, Copper River Meridian, Alaska, was executed by Thomas B. O'Toole, Cadastral Surveyor, in 2016-2018.</p> <p>The survey of a portion of the south boundary, the west boundary, and a portion of the subdivision of section lines of Township 28 North, Range 18 East, Copper River Meridian, Alaska, was executed by Thomas B. O'Toole, Cadastral Surveyor, in 2016. The plat has not been officially filed at this time.</p> <p>This survey was executed by Joshua P. Foreman, Cadastral Surveyor, August 27, through September 29, 2021, in accordance with the specifications set forth in the <u>Manual of Surveying Instructions (2009)</u>, and Supplemental Special Instructions No. 1 for Group No. 1210, Alaska, dated August 24, 2021, and approved August 27, 2021.</p> <p>This survey was executed using the Global Navigation Satellite Systems (GNSS), utilizing static relative and real time kinematic positioning techniques; no lines were brushed or marked between corners. The direction of each line is with reference to the true meridian. All surveyed lines are mean bearings. All distances are horizontal distances reduced to their sea level equivalent.</p> <p>Preliminary to the resurvey, the lines of the prior surveys were retraced and a diligent search was made for all evidence of the original corners and other calls of record.</p> <p>The geographic positions in NAD83 (2011), epoch 2010.00, for the two corners below were determined by GNSS observations utilizing the National Geodetic Survey Online Positioning User Service (OPUS), to a <i>Network Accuracy</i> with a maximum peak-to-peak separation for each component of the computed position, of less than or equal to 0.05 meters, semi-major axis 95% error ellipse, as defined in the Bureau of Land Management's <u>Standards for the Positional Accuracy of Cadastral Surveys When Using Global Navigation Satellite Systems (GNSS)</u>, dated February 23, 2009.</p>

CERTIFICATE OF SURVEY

I, Joshua P. Foreman, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Supplemental Special Instructions No. 1 bearing the date of the 24th day of August, 2021, I have dependently resurveyed a portion of the subdivisional lines and informationally traversed a portion of the apparent centerline of the Chicken to Franklin Trail in Township 27 North, Range 18 East, Copper River Meridian, in the State of Alaska, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Surveying Instructions (2009), and in the specific manner described in the foregoing field notes.

(Cadastral Surveyor)

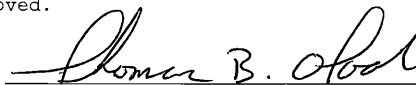

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Anchorage, Alaska

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines and an informational traverse of a portion of the apparent centerline of the Chicken to Franklin Trail in Township 27 North, Range 18 East, Copper River Meridian, Alaska, were executed by Joshua P. Foreman, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

(Chief Cadastral Surveyor for Alaska)

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above described surveys in Township 27 North, Range 18 East, Copper River Meridian, Alaska, is a true copy of the original field notes.

(Date)

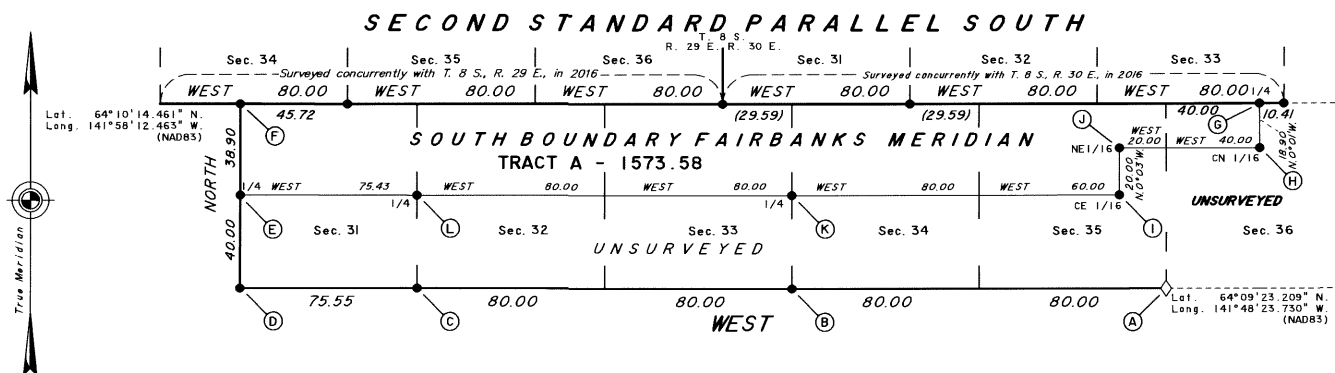

(Chief Cadastral Surveyor for Alaska)

TOWNSHIP 28 NORTH, RANGE 18 EAST, OF THE COPPER RIVER MERIDIAN, ALASKA

A history of surveys is contained in the field notes.

This plat and field notes represent the survey of a portion of the south boundary, the west boundary, and a portion of the subdivision of section lines of Township 28 North, Range 18 East, Copper River, Meridian, Alaska.

This survey was executed by Thomas B. O'Toole, Cadastral Surveyor, May 16 through July 20, 2016, in accordance with the specifications set forth in the Manual of Surveying Instructions (2009), and Special Instructions for Group No. 1210, Alaska, dated May 2, 2016.

TOWNSHIP 28 NORTH, RANGE 18 EAST, OF THE COPPER RIVER MERIDIAN, ALASKA DEPENDENT RESURVEY AND INFORMATIONAL TRAVERSE

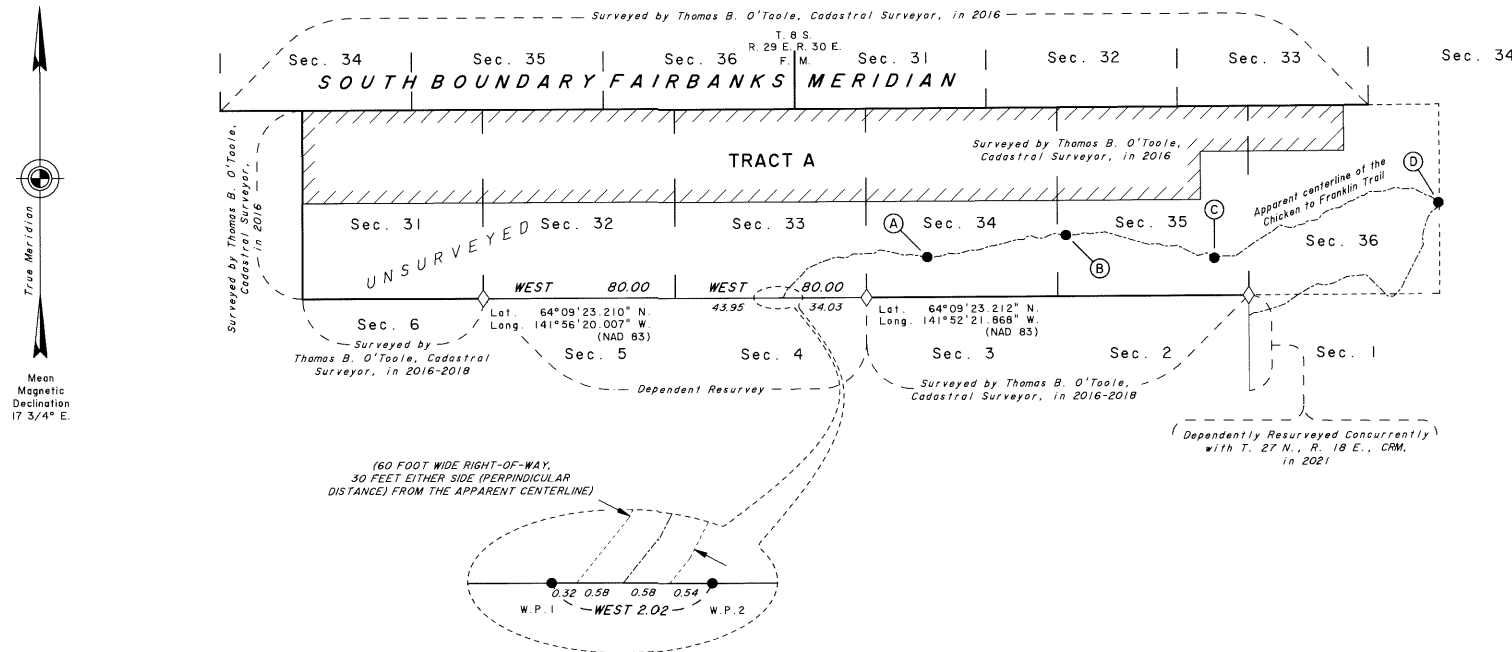

The history of surveys is contained in the field notes.

This plat and field notes represent the dependent resurvey of a portion of the south boundary and an informational traverse of a portion of the apparent centerline of the Chicken to Franklin Trail in Township 28 North, Range 18 East, Copper River Meridian, Alaska.

This survey was executed by Joshua P. Foreman, Cadastral Surveyor, August 27 through September 29, 2021, in accordance with the specifications set forth in the Manual of Surveying Instructions (2009) and Supplemental Special Instructions No. 1 for Group No. 1210, Alaska, dated August 24, 2021, and approved August 27, 2021.

The direction of all lines returned on the plat, including ties, are reported as mean bearings with reference to the true meridian.

SECOND STANDARD PARALLEL SOUTH

Informational Traverse Notes

1. The portion of the Chicken to Franklin Trail from Angle Point 4 (letter designator D) to the line between sections 1 and 2 of Township 27 North, Range 18 East, is described in the field notes of said township.
2. The Chicken to Franklin Trail has a 60 foot Right of Way, 30 feet either side (perpendicular distance) from the centerline.

General Description

This survey is situated approximately 7 miles northeasterly from
Chicken, Alaska.

The land is rolling mountains, supporting spruce, birch, and
undergrowth willow and alder. The elevation varies from
approximately 1600 ft. to 3200 ft. above sea level.

The soil varies from rocky loam to gravel.

Access to the survey was by helicopter.

	<hr/>	
	General Description	
	This survey is situated approximately 6 miles north of Chicken, Alaska.	
	The landscape is rolling foothills and a valley that is broad with gentle slopes to the west, becoming narrow and steep to the east where it drains into the Fortymile Wild and Scenic River corridor and the Fortymile River. There are areas of recent burn and forests of spruce, birch, cottonwood, and alder.	
	Access to the survey was by helicopter and side-by-side all-terrain vehicles.

[illegible]

CERTIFICATE OF SURVEY

I, Joshua P. Foreman, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Supplemental Special Instructions No. 1 bearing the date of the 24th day of August, 2021, I have dependently resurveyed a portion of the south boundary and informationally traversed a portion of the apparent centerline of the Chicken to Franklin Trail in Township 28 North, Range 18 East, Copper River Meridian, in the State of Alaska, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Surveying Instructions (2009), and in the specific manner described in the foregoing field notes.

9/6/2022
(Date)

Joshua P. Foreman
(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Anchorage, Alaska

The foregoing field notes of the dependent resurvey of a portion of the south boundary and the survey and informational traverse of a portion of the apparent centerline of the Chicken to Franklin Trail in Township 28 North, Range 18 East, Alaska, were executed by Joshua P. Foreman, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

September 21, 2022 *Thomas B. Oboin*
(Date) (Chief Cadastral Surveyor for Alaska)

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above described surveys in Township 28 North, Range 18 East, Copper River Meridian, Alaska, is a true copy of the original field notes.

(Date)

(Chief Cadastral Surveyor for Alaska)

TOWNSHIP 7 SOUTH, RANGE 27 EAST, OF THE FAIRBANKS MERIDIAN, ALASKA

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, and in a collar of stone, with brass cap mkd. as shown, from which

A spruce, 6 ins. diam., bears N. 53 1/2° E., 74 lks. dist., mkd. C N 1/16 S26 BT, with a 5 in. spike driven into the NW side at the base. Snow blazed.

A spruce, 7 ins. diam., bears S. 61° W., 177 lks. dist., mkd. C N 1/16 S26 BT, with a 5 in. spike driven into the NW side at the base. Snow blazed.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a northerly facing slope amongst scattered spruce, willows and brush.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, and in a collar of stone, with brass cap mkd. as shown, from which

A spruce, 6 ins. diam., bears S. 9 1/4° W., 44 lks. dist., mkd. T7S R27E 1/4 S26 BT, with a 5 in. spike driven into the NW side at the base. Snow blazed.

A spruce, 7 ins. diam., bears N. 44° W., 59 lks. dist., mkd. T7S R27E 1/4 S23 BT, with a 5 in. spike driven into the SW side at the base. Snow blazed.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a moderately steep south facing slope, north of Confederate Creek, with scattered spruce and willow.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 20 ins. in the ground, with brass cap mkd. as shown, from which

A spruce, 6 ins. diam., bears S. 17 1/2° E., 8 lks. dist., mkd. E 1/16 S14 BT.

Drive a galvanized steel fence post, 5 ft. long 2 1/2 ft. in the ground, 5 lks. N of cor.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a northeasterly facing slope amongst scattered spruce, birch and alder.

This plat contains the entire survey record.

This survey was accomplished using the Global Positioning System; no lines were brushed or marked between corners.

This survey was executed by Kurt D. Huhta, Cadastral Surveyor, June 1, through July 15, 2002, in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, Special Instructions for Group No. 825, Alaska, dated May 22, 2002, approved May 30, 2002 and Assignment Instructions dated May 31, 2002.

Field assistants were:

Nathan C. Erickson, Land Surveyor
Gary L. McIntyre, Land Surveyor
Andrew M. Buck, Surveying Technician

The azimuth was obtained from the Global Positioning System, utilizing static relative and real-time kinematic positioning techniques, and refers to the true meridian.

The geographic position of the east 1/16 section corner of sections 11 and 14, as determined by a tie to the National Geodetic Survey triangulation station "ATWATER 1956", is:

Latitude: 64°18'55.33" North (NAD 27)
Longitude: 142°19'17.09" West

The geographic position of the center north 1/16 section corner of section 26, as determined by a tie to the National Geodetic Survey triangulation station "ATWATER 1956", is:

Latitude: 64°16'58.41" North (NAD 27)
Longitude: 142°19'46.82" West

The mean magnetic declination was observed during the execution of other surveys in the vicinity.

This survey is situated approximately 20 miles northwesterly of Chicken.

The land is fairly steep, forested with scattered medium diameter spruce, birch and small willows.

Access to the survey was by helicopter.

Acceptance of this survey does not purport to transfer any interest in submerged lands to which the State of Alaska is entitled under the Equal Footing Doctrine and Section 6(m) of the Alaska Statehood Act, P.L. 85-508, notwithstanding the use, location, or absence of meander lines to depict water bodies.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Anchorage, Alaska

The survey represented by this plat, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

John Smute 2/09/2005
Date

Deputy State Director for Cadastral Survey, Alaska

Lat. 64°18'55.33" N.
Long. 142°19'17.09" W.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 22 ins. in the ground, and in a collar of stone 1 1/2 ft. diam., with brass cap mkd. as shown.

Drive a galvanized steel fence post, 5 ft. long 2 1/2 ft. in the ground, 5 lks. N of cor.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a moderately steep northerly slope, approximately 40 lks. from the base.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 18 ins. in the ground, encircled with a mound of stone, 2 ft. base to top of base cap, mkd. as shown, from which

A spruce, 9 ins. diam., bears N. 18° E., 28 lks. dist., mkd. C E 1/16 S11 BT.

A spruce, 7 ins. diam., bears S. 69° W., 52 lks. dist., mkd. S11 C E 1/16 BT.

Deposit a magnet in a white plastic case at the base of the stainless steel post.

Located on a south facing slope, with scattered spruce, birch and willows.

Found an aluminum cap, 2 1/2 ins. diam., firmly set, flush with the ground, with top mkd. as shown.

Referenced as shown in the published record.

Located approximately 12 miles easterly of the Taylor highway, approximately 8 miles southerly and 7 miles easterly of Chicken, on a small rounded top at the headwaters of Atwater Creek on approximately the highest point.

I, Kurt D. Huhta, HEREBY CERTIFY upon honor that in pursuance of Special Instructions dated May 22, 2002, I have executed the survey depicted on this plat in strict conformity with said Special Instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, 1973, and in the specific manner described on this plat.

FIELD ASSISTANTS

Case 4:13-cv-00008-RRB Document 370-1 Filed 11/20/24 Page 87 of 88

CERTIFICATE OF SURVEY

I, Joshua P. Foreman, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Supplemental Special Instructions No. 1 bearing the date of the 24th day of August, 2021, I have dependently resurveyed a portion of the subdivisional lines, and informationally traversed the apparent centerlines of the Hutchinson Creek and Montana Creek Spur Trails, through a portion of the Fortymile Wild and Scenic River Corridor in Township 7 South, Range 27 East, Fairbanks Meridian, in the State of Alaska, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Surveying Instructions (2009), and in the specific manner described in the foregoing field notes.

9/6/2022

(Date)

(Cadastral Surveyor)

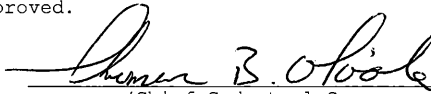

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Anchorage, Alaska

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines, and an informational traverse of the apparent centerlines of the Hutchinson Creek and Montana Creek Spur Trails, through a portion of the Fortymile Wild and Scenic River Corridor in Township 7 South, Range 27 East, Fairbanks Meridian, Alaska, were executed by Joshua P. Foreman, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

September 21, 2022

(Date)

(Chief Cadastral Surveyor for Alaska)

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above described surveys in Township 7 South, Range 27 East, Fairbanks Meridian, Alaska, is a true copy of the original field notes.

(Date)

(Chief Cadastral Surveyor for Alaska)
